UP AND AWAY!

COVER HELPERS

A. Cover Rx #7900

The only cover lift in the world designed for use on a Softub spa. The unique undermount installation plate uses the weight of the spa's water to secure the lift in place. Flip the cover back into the waiting arms and lower it safely and effortlessly into place behind the spa and off the ground. Minimal assembly. Requires 14" of clearance.

B. Cover Shelf (wall mount) #8246

A simple alternative to get the Softub lid out of the way for easy spa enjoyment. The Cover Shelf attaches to any wall, fence or structure behind the Softub spa. The two support arms fold flat and out of the way when not in use, yet easily pivot to an open position to support the Softub lid. Requires 36" of clearance behind the spa.

C. Cover Stand #7920

Safely holds the Softub cover off the ground. Requires no assembly. Folds flat when not in use.

D. Replacement Lid Strap & Locks

Combination locks help prevent unauthorized access to the spa.

ESSENTIALS FOR VINYL CARE

A. UltraMitt #6875

This comfortable mitt has a non-abrasive pad that does not scratch the vinyl liner. Can also be used for a variety of cleaning jobs.

B. Vinyl Repair Kit #6400

Matches and repairs cuts or tears in the Softub exterior vinyl surface.

C. Softub Cleaner and Conditioner

#9801510 Cleaner
#9801525 Conditioner
Protect your Softub investment and enjoy its beauty for years. This monthly cleaning and conditioning treatment keeps vinyl soft, supple and restores UV blockers for protection from the elements.

D. Thermal Spa Blanket

#5235
Insulate your spa with this floating thermal blanket. Protects the underside of the spa lid from condensation and prevents evaporative heat loss. 7'x7' size can be cut to fit any size Softub interior.

E. TEAR-AID Vinyl Repair Kit

#6420

TEAR-AID is the elastic patch that repairs holes and tears instantly - and won't pull off even when stretched. The unique air and watertight elastic fabric covers and stretches, absorbing the force that causes ordinary repair products to tear off. Clear patch mends any color of vinyl.

F. 303 PROTECTANT

303 Aerospace Protectant is like "SPF 40 Sunscreen... For Your Stuff." Regular use of 303 can reduce UV caused fading by up to 100%. No other protectant beautifies as intensely, protects as powerfully or lasts as long.

FILLING AND DRAINING

EcoOne Hose Filter #8014

This advanced hose filter reduces common water contaminants **before** they enter the spa. Also perfect for filling fish ponds, fountains, bird baths or anywhere you want clean, pure water. Excellent for organic gardening and camping. Purifies up to 40,000 gallons of water.

- Removes 90% of Chlorine and 98% of Metals
- Removes Scale Causing Minerals
- Works with Hard or Soft Water
- Connects to any Garden Hose

Swirl Away Plumbing Cleaner #1810

Use prior to draining the spa. Dissolves accumulated bath and body oils that build-up in plumbing lines and impair jet action. 16 oz.

Faucet Adaptor #4800

Easily connects to any faucet to allow the attachment of a garden hose. Perfect to fill the spa with warm water.

Great Start Filter #5044

Don't fill your spa with water containing metals and other deposits then add chemicals to make them go away. Prep your water before it enters your spa and use less chemicals at start-up.

Simple Siphon #6260

Start to siphon instantly with a simple shake. Includes a garden hose connector for extended length.

Submersible Pump #6320

This unique pump was designed for pool covers but is ideal for spas. Attaches to any standard garden hose. Includes a reusable filter to avoid clogging from debris. 25' cord. (300 gallons per hour)

FILTER REPLACEMENT

The filter is critical to clean water. Dirty filters can restrict water flow, cause hazy water, and prevent your chemicals from working properly and efficiently. Many water treatment products clear or clarify the water by clumping microscopic particles together so that these larger particles can be effectively trapped in the filter. A filter clogged with debris and other deposits will not effectively do its job. Clean the filter once a month and replace it every 6-12 months. Keep an extra filter on hand so that you always have a clean one ready for immediate spa enjoyment.

Upgrade to Microban!

High temperatures and the wet environment make an unprotected filter a target for the growth of bacteria. Great Barrier filters are made with genuine **Reemay with Microban®**. Microban antimicrobial protection inhibits the growth of bacteria that can cause staining, odors and degradation of the filter. The unique continuous antimicrobial cleaning action of Microban makes the spa filter easier to clean, keeps it fresher between cleanings and ensures filter life.
